Technology Update for year 2016-2017

Dear Meadow Oaks Academy Parents,

On behalf of Meadow Oaks Academy, we feel honored that you have placed your student in our care this year and appreciate your family's participation in our school community. **This year has been a creative and unique adventure for our school and most assuredly for our elementary students.**

Through our engineering and computer science programs, students used structured approaches, like the engineering design process, and employed critical thinking.

Next school year we will continue to build on this foundation and implement technology, engineering and computer science programs in every preschool (Pre-2 – Pre-k) and elementary (K-5th grade) classroom. All our classrooms will be equipped with projectors, document cameras (Pre-k onwards), teacher ipads/computer overhead connections for interactive classroom and teacher controlled computer data connections with large TV display. This annual technology update will allow our teachers the tools necessary to deliver engaging and meaningful lessons to our students. All students will have access to ipads or laptops every day during their cross-curricular subjects and one to one ratio of ipad/computers/electronic devices to student will be maintained. We will ensure our students have access to the technology tools necessary to be successful in their education and life, and technology becomes part of their daily classroom routine.

We are also working on a variety of after school clubs that will have an engineering and computer science focus.

Parents registered in 2016-17 school year will see a one-time technology fee of \$150 that will be charged to their account on September 1st. Parents can also pay this fee in two installments of \$75 each, due on September 1st and January 1st.

Thank you for entrusting your child's education to us. Our belief in Meadow Oaks has never been stronger as we look forward to celebrating our 31st Anniversary this year. We are very proud of the education provided for Meadow Oaks' children, and we look forward to working with your family.

Mr. Shubham Pandey
